## SUMMARY

---

Data analyst with experience in processing, analysing and presenting data. Strong background in SQL, Python, Excel, Tableau and Power BI, and proficient in using these tools to perform data manipulation, visualisation and data mining. Successfully completed several projects involving data analysis, such as Covid- 19 vaccine tracker and Netflix analytics. Passionate about finding patterns and trends in data and using them to help organisations make informed decisions and achieve their goals.

## CERTIFICATIONS

## EXPERIENCE

---

### Python Programming

CodSoft

Aug '23 — Present

- Developed a calculator application using Python that can perform basic arithmetic operations, such as addition, subtraction, multiplication, and division.
- Working on other similar projects using Python, such as a quiz game, a tic-tac-toe game, and a password generator.
- Enhance my problem-solving and coding skills by applying the best practices of Python programming, such as code readability, documentation, testing, and debugging.

### Data Analytics

Accenture and KPMG Analytics (Forage)

- Gained valuable insights into the data analysis process and the industry expectations for data analysts in different domains and sectors.
- Applied data analysis skills and tools such as SQL, Python, Excel, Tableau, and Power BI to solve various business problems and generate data-driven insights.
- Received feedback and guidance from experienced data analysts and mentors from Accenture and KPMG on how to improve the quality and presentation of the data analysis outputs.

### Data Visualization Associate

Excelerate

- Collaborated with the team to clean and preprocess the raw dataset.
- Ensured data integrity by handling missing values, outliers, and inconsistencies.
- Designed and developed interactive dashboards using visualization tools (such as Tableau).
- Created visually appealing charts and graphs to convey insights effectively.
- Presented the team's analysis and findings to the client using the developed dashboard.
- Demonstrated a deep understanding of data visualization techniques.

## EDUCATION

---

### BSc in Mechanical Engineering, Obafemi Awolowo University

Apr '19 — May '24  
Ife, Nigeria

- Ile-Ife, Osun State. Nigeria.

## SKILLS

---

**Programming and Scripting** Python (Programming Language), SQL (Programming Language), Excel

**Data Visualization** Tableau (Business Intelligence Software), Power BI

**Data Analysis** Analytics, Data Analysis, Data Manipulation

**Version Control and Collaboration** Github

**Project Management** Project Management

**Soft skill** Decision Making, Report Writing, Data Driven
